Here's what we've got for you this week:

- **Sneak Peak:** See What the Wind is Doing
 - **On the Blog:** What is SpotOn Fishing?
 - **Community Spotlight:** Do You Use BoatTEST?
 - **Quick Tip:** Always let someone know your plan
 - **Argo Live Replay:** Meet Record Setting Robert Youens
-

Sneak Peak

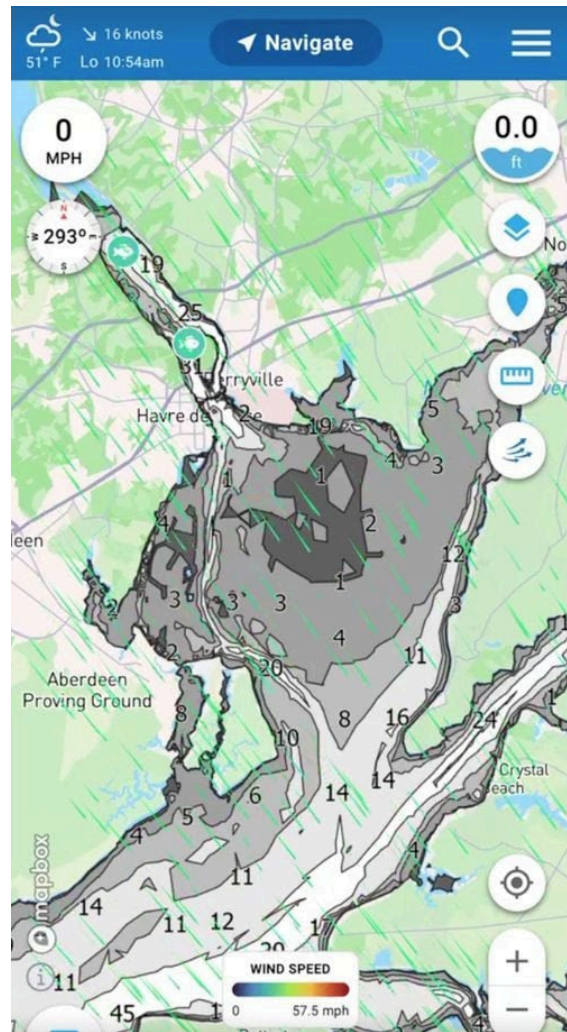

Wind Overlay

See what the wind is doing before you leave the dock. The new live wind overlay will help you choose the best route, plan safer crossings, and avoid rough conditions.

It should be available within Argo in the next 7-10 days.

Click the link below to see a sneak peak of the live wind overlay in action.

On the Blog

What is SpotOn Fishing?

If you have ever stared at a chart wondering where the fish actually are, you are not alone. That frustration is exactly what SpotOn Fishing was built to solve.

Community Spotlight

Do You Use BoatTEST.com?

If you're researching your next boat, check out BoatTEST.com.

Their in depth sea trials, reports, and videos help boaters compare models and make confident decisions. It's a trusted resource many boaters rely on before buying new or used. Huge thanks to their team for helping boaters everywhere make smarter choices.

Quick Tip

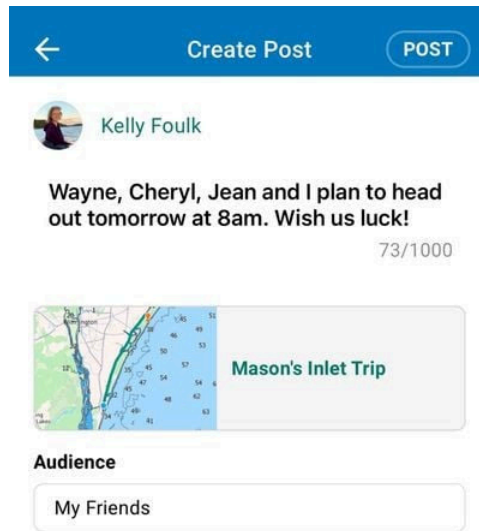

Always let someone know your plan

Always let someone know your plan before you head out. In Argo, you can easily share your route, crew, and departure time with a friend or group. There's also a link to the United States Coast Guard float plan form.

A simple step that can make all the difference.

Watch the quick demo video to see how to use both.

Argo Live Replay

Meet Record Setting Robert Youens

Surprise guest! Our latest Argo Live featured Robert Youens, the Austinite who completed the Great Loop in 19 days, 13 hours, and 1 minute aboard a 16-foot aluminum jon boat last summer.

He's making waves in the boating world right now. Catch the replay to hear how he pulled it off.

What Do Boaters Think of Argo Premium?

"I was using Wavve (and my Garmin chartplotters) and really needed something easier for directions. I've been using Argo for a short time but already see that it's leaps and bounds better than where I was at before.

The quick response time, and the fact that it will actually give me a route between points A and B are the biggest benefits. It's also easy to use."

- Casey, *Maryland Boater*

Try Premium free for 2 weeks and get features like A to B routing.
