### What's New this Week

## Share Pins to Just Your Group

For the first time, you can share new places on the chart only with the people you're boating with.

Create raft ups, cruising destinations, or race marks and add them directly to Argo's chart, then choose a specific group to share them with. Until now, saved places were either private to you or public for everyone. Now, you control exactly who sees what.

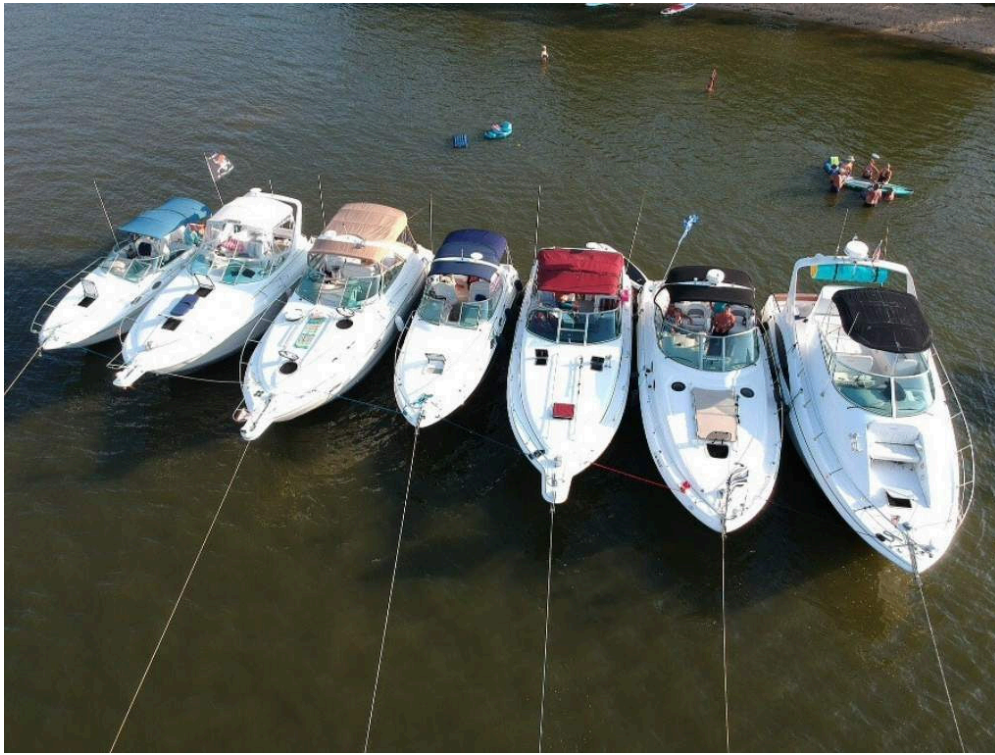

This is especially useful for race organizers, cruising groups, and friends planning trips together. Everyone in the group sees the same points in one place, while the rest of the Argo community does not.

It's a simpler, clearer way to plan and coordinate group trips.

**Quick Tip**

## Say Ahoy to Nearby Boaters

Boaters are famously friendly, and Argo makes it easy to connect. When you see other boats on the chart near you, tap their icon and send a message or simply say ahoy to start a casual conversation.

It is a great way to introduce yourself, invite someone over, ask a quick question, or share local knowledge.
